

November 4, 2018

My name is [REDACTED] and I live in [REDACTED] in Kent County along the [REDACTED]. My wife [REDACTED] and I selected this wonderful county because it was most like my former home in Ringoes, N.J. a rural community in central N.J. with farms with beautiful views of the Sourland Mts in a small state.

We moved to Maryland and built a home in a rural part of Maryland. If the state MDTA insists on building another bridge to and from the western shore to the Eastern Shore the land along the another Bay bridge will replicate the look of the existing Bay bridge. I strongly believe this will change Kent County forever and eliminate what is now a rural environment for ever.
