12/29/2022	Web	Hello. Not sure if this the correct place to submit design ideas for the potential new Chesapeake Bay Bridge span. But if so, I would like to propose the following 2 ideas: 1. Have the bridge include a walking and biking path. If the bridge connects Sandy Point State Park with Terrapin Nature Park, a path could be a huge benefit for recreation. A path would also fit in well with objectives of the Chesapeake National Recreation Area. 2. Have the bridge be lighted at night. This would make the area extremely asctetically pleasing for boaters and others in the surrounding areas. For examples of what this could look like, I would recommend looking at the Golden Gate Bridge or the Tappan Zee Bridge. If you want any more information on on either of these or on anything else, please let me know. Best of luck with this exciting project! [Name Redacted]
